# Discover Exhibitors and Products

You can browse the full list of exhibitors or narrow down the list using the available filters or keyword searches

- Select the Products/Services you are looking for and/or the country of where the exhibitor is based
- Type a keyword in which searches through the company name and description to display the results
- “Premium Exhibitors” appear first, with the remaining exhibitors shown in alpha order

The screenshot displays a web interface for discovering exhibitors. At the top, there are navigation tabs: EXHIBITORS (selected), PRODUCTS, NEWS, and EVENTS (2). Below the navigation, there are filter tags: YOUR FILTERS: Ground Support Equipment x, United States x, EXHIBITOR x, and Airframes x. The main heading is EXHIBITORS, followed by a note: Sorted alphabetically, switch to "Recommended for You" to personalize this list with AI precision. A toggle switch for "Recommended for you" is visible. The exhibitor cards are arranged in a grid. Each card features a logo, a location tag (e.g., HALL 3 | 1428), the exhibitor name, and their location. Each card also has a star icon in the top right corner and two icons (a calendar and an envelope) at the bottom right.

**Q. How do I use the Favourite function to group items only relevant to me?**

A. When browsing the event, you will come across exhibitors, attendees, products and sessions that are most relevant to you.

The best way to organise this important data all in one place is to use the favourite (the star icon). For sessions, click + My Schedule.

To view your favourites click on **Profile > Networking > Favourites**

**Q. Why is the meeting button not available for everyone?**

A. On the desktop version, you can only send a meeting to an "active" participant (someone who has logged in and updated their mandatory fields). This means every meeting request is likely to be seen and responded to.

Make sure your own profile is complete by completing your Interest Categories to allow attendees to book a meeting with you!

**Q. How do I add products? (exhibitors only)**

A. Adding a product or service is a great way for exhibitors to increase your visibility on the app and attract visitors looking for something specific to network about, without having to find you by name in the exhibitor list. A standard
